PROFESSIONAL SUMMARY

Aspiring DevOps Engineer and BCA student with hands-on experience in Linux, Windows, Git, GitHub, Docker, Jenkins, Bash Scripting, and CI/CD. Passionate about automation, containerization, and modern software deployment practices. Completed practical DevOps training and built projects using industry-standard DevOps tools. Seeking a DevOps Internship or Entry-Level DevOps Engineer role to contribute and grow.

TRAINING

DevOps Training

C-DAC | June 2026

Hands-on practical labs and real-world DevOps exercises covering:

Linux Administration • Git • GitHub • Docker • Jenkins • CI/CD • Bash Scripting • DevOps Fundamentals

PROJECT

DevOps CI/CD Automation Project

Tools: Linux • Git • GitHub • Docker • Jenkins

- ▶ Managed source code using Git and GitHub for version control.
- ▶ Built Docker images and managed containers for application deployment.
- ▶ Created Dockerfiles to streamline application containerization.
- ▶ Automated build and deployment pipelines using Jenkins.
- ▶ Implemented end-to-end CI/CD workflow from code commit to deployment.
- ▶ Performed automation tasks in a Linux environment using Bash Scripting.
